A module of TimeInvoicer – timeinvoicer.com

Your client data belongs to you. Period.

Your clients trust you with their most private thoughts. That trust deserves the highest level of data protection. Psy-TimeInvoicer was built exactly for this:

- ✓ **Zero Cloud.** All invoices, contacts, and client data stay exclusively on your device.
- ✓ **Your own calendar.** You use your local Android calendar – no third-party server ever sees your appointments.
- ✓ **Anonymized calendars.** Optionally create anonymized calendars – for web sync across devices, room planning, or coverage. Without client names. Privacy preserved.
- ✓ **AES-256 encryption.** Optional backups are end-to-end encrypted. Only you hold the key.
- ✓ **No tracking.** No analytics, no ads, no third parties. GDPR Art. 9 (Health Data) compliant.

FEATURES

Everything you need.

Calendar-based practice billing

Your Android calendar becomes the source for fee notes, invoices and session billing – no double entry.

Fee note in one click

Tap a session, review the preview, then print, save or share the invoice or fee note.

ICD-10 & service recognition

Service type, ICD-10 billing-code quick select and matching fee defaults are prepared locally.

Insurance applications

Prepare reimbursement forms and insurance documents with existing client and practice data.

PDF, reminders & payment tracking

Professional PDFs, open-item status and reminders stay in one practice workflow.

Receipts, expenses & analytics

Scan incoming invoices, categorize expenses and keep revenue, services and year view visible.

HOW IT WORKS

3 steps to your invoice

1

Appointment in your calendar

Use your regular Google or Samsung calendar. No new system required.

2

Psy-TimeInvoicer detects automatically

The app prepares service type, ICD-10 billing code, fee defaults and insurance application data locally.

3

Send as PDF

Professional PDF via email, WhatsApp or print, with open items and reminders ready.

Why Psy-TimeInvoicer?

- **No PC required** – everything on your Android phone or tablet (tablet recommended)
- **Android tablet recommended** – ideal if you want to take notes directly
- **Works completely offline** – no internet required
- **14-day free Pro trial** – scan the QR code and test every practice feature
- **Zero cloud** – sensitive client and health data stays on your device

“What makes Psy-TimeInvoicer unique is its calendar integration: your existing Android calendar becomes your billing engine – complete with ICD-10 billing codes, insurance applications, reminders and payment tracking.”
